FleetNet America Unveils Redesigned & Expanded Website

FleetNet America, Inc is excited to unveil a redesigned and expanded website, www.fleetnetamerica.com. The modern look of the site projects the professionalism, loyalty and reliability FleetNet provides the industry. The enriched content reflects more detail on the vast services provided as well as information on the founder, philosophy and quality assurance. With a robust FAQ, customers get answers quickly about the value FleetNet offers the market.

"FleetNet is changing the direction of fleet maintenance with the way we do business. We are different from others in the market by offering flexible, customized solutions; giving information and data to the customer; and being transparent in our business dealings. With the expanded website, we have a tool to communicate those things to the industry. We are looking forward to more people getting to know us better." states Heather Holt, Director of Marketing. ■

Cold Weather Tips

With cooler weather quickly approaching, now is the best time to prepare your vehicles for the cold, hard days of winter. While safety is an important consideration all year long, there are certainly some maintenance jobs and safety checks that are specific to chilled air and winter driving that are a good idea to check into before we're knee deep in the season.

Cooling System

- Check the cooling system to make sure that it has the proper antifreeze concentrations and the proper additives
- Check all hoses for cracks or for signs of leaking
- Check belts for cracks or frays
- Check unit for any signs of possible leaks in the engine compartment, or around the hose routing to the cab.
- Check to make sure that you have the proper windshield washer fluid

Fuel System

- Change fuel filters
- Service fuel water separator
- Add proper diesel fuel treatment to help reduce water and waxing
- Check engine area for any signs of fuel leaks especially around fuel lines and connections

Starting System

- Clean battery area and batteries
- Check battery date, load test batteries to make sure that there are no issues or weak cells
- Clean all cable ends and inspect for crack in cable coating. Check for corrosion at terminals ends, clean and coat battery connections with anti corrosion spray or grease
- Check Alternator Mounts for tightness
- Check alternator out put
- Check starter draw

Air System

- Service Air Dryer changing filter
- Check operation of Air Dryer to make sure it is working properly
- Inspect air lines and check for any possible leaks

John Martin

FleetNet Hires New Director of Roadside Quality Solutions

FleetNet America, Inc announces the recent hiring of John Martin as Director of Roadside Quality Solutions. In this position, Mr. Martin will be responsible for planning, directing, and coaching employees in the emergency roadside assistance division, along with software engineers and other support personnel. John's focus is to optimize the FleetNet infrastructure to ensure quality solutions for our customers. John's previous experience includes tenure with Ryder Truck Rental & Leasing, Miller Truck Leasing, Penske Truck Leasing, Gallagher Truck Center, Serco Management Services, Inc., and service with the United States Marine Corp. He joins FleetNet with a wide range of knowledge with over twenty years (20) of experience in the industry. ■

New Customers Join FleetNet Family

FleetNet America administers service for 350,000+ events annually, as well as being responsible for over 1,000,000 pieces of customers' equipment in the TMcare® (Total Maintenance Care) and Roadside (emergency roadside) programs. We would like to welcome the new customers who joined our FleetNet family in the last few months.
